

Romanian Americans know Democrats are on their side

Democrats support the development of democracy and a strong, stable market economy in Romania. They are aware of the recent hardships Romania has suffered and are committed to supporting the nation's progress. They are determined to promote American investments in Romania and to bring it into the community of Western nations. This year Democrats are fighting to bring Romania into NATO.

Democrats believe in securing America's future for all our families. We are the Party that created Social Security, and we will fight to protect it from dangerous privatization schemes that would cut guaranteed benefits.

Democrats are the Party of fiscal responsibility and targeted middle-class tax cuts that help generate jobs and economic growth. Democrats want to provide the resources our public schools need to educate our children. We believe prescription drug prices have spiraled out of control, and we're committed to bringing those costs down by taking on the big drug companies.

And we are working to protect people from corporate bandits who deceive 401(k) holders and make off with the pensions and retirement savings of hardworking Americans.

Democrats put our families first.

Italian Americans know Democrats are on their side

Democrats value the close political, economic and defense relationships Italy and the United States enjoy as partners in NATO and the United Nations. And they recognize and appreciate the many contributions that Italian Americans have made to the United States, its culture and history.

Democrats believe in securing America's future for all our families. We are the Party that created Social Security, and we will fight to protect it from risky privatization schemes that would cut guaranteed benefits.

Irish Americans know Democrats are on their side

Democrats worked with President Clinton to promote the Irish peace process. They strongly support full implementation of the Good Friday Agreement and the Patten Commission Report. Democrats will work to nurture the peace process and actively promote American investment in Ireland.

Democrats believe in securing America's future for all our families. We are the Party that created Social Security, and we will fight to protect it from risky privatization schemes that would cut guaranteed benefits.

Serbian Americans know Democrats are on their side

Serbian Americans know that Democrats are dedicated to strengthening America's families and investing in our future. Democrats value the contributions made by Serbian Americans to this country. We are eager to see a partnership between the United States and Serbia based on democratic principles, economic cooperation and mutual respect. Serbian Americans are proud of the historic friendship between the United States and Serbia.
